

S-753

Compact • Versatile • High-Performance

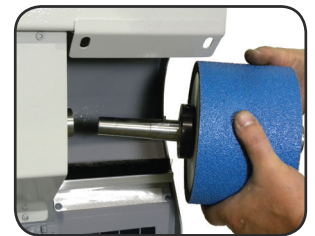

Landis S-753
SKU: LANDISS753

If space is a consideration, you no longer have to sacrifice quality and performance in a finisher. The S-753 accomplishes almost everything the larger machines do while occupying just a fraction of the floor space without compromising the high standards you've come to expect from Landis machinery. The S-753 is compact, highly efficient and versatile and is equipped with a powerful dust collection system.

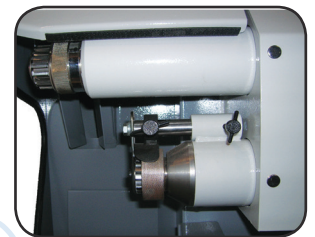

All Landis Finishers have a shaft bayonetted on both sides to interchange rapidly with our large variety of accessories
